Khosrow Heidari, Patsy Myers, and their assistant have come up with an improved Table of Contents. They will try to send out an outline for review for feedback from the Surveillance Council. There will be a meeting at the Symposium on Thursday, September 15 @ 5:00pm in Meeting Room 1.
- III. Website – There are opportunities to enhance the DSC website and make it more informative. Discussion was held on protecting documents developed by DSC. Each slide will contain the DSC logo, and a request slide with references will be at the beginning of each presentation.
- IV. Dr. Lackland informed the Council that the Keynote speaker, Graham MacGregor, will not be speaking at the Symposium. Dr. Greenberg will talk about trends and where we are going, then present the Guidelines. There will be a separate survey distributed in collaboration with the MUSC Office of CME. The survey questions will be distributed to Council members for input.
